Gabriel Joshua Paet

Software Developer, Metro Manila, Philippines

hello@gabpaet.dev linkedin.com/in/gjvpaet github.com/gjvpaet gabpaet.dev

I build web and mobile applications, workflow automation, and the cloud infrastructure that runs them. 9 years shipping.

Experience

Lumora Capital

Senior Programmer May 2026 to now

Hybrid, Philippines

- Building Centra, Lumora's proprietary loan origination and servicing system.
- Automating manual operations with n8n and agent tooling, including Claude Code in the daily workflow.

Next.js Node.js PostgreSQL n8n GCP Docker JavaScript React Express Claude Code OpenClaw DigitalOcean Git GitHub

ahaStudio, a Volenday Group studio

Senior Programmer Sep 2024 to Apr 2026

Programmer Jan 2024 to Sep 2024

Hybrid

- Shipped LLM features with LangChain, LangGraph, OpenAI, AWS Bedrock Agents and Vertex AI.
- Built web and mobile apps across Next.js, React Native and Flutter.

LangGraph AWS Bedrock Agents Next.js React Native LangChain Supabase OpenAI API Google Vertex AI Flutter React Node.js JavaScript PostgreSQL SQL GCP Vercel DigitalOcean AWS S3 Azure File Share Docker Git

Volenday Group

Programmer May 2017 to Jan 2024

Remote

- Built a React Native app with Danish and Norwegian language support, plus its REST API.
- Led a team as scrum master for a web app serving offshore employees, and migrated it to Azure with MSSQL and Azure File Share for faster deploys.
- Ran the app's Azure CI/CD pipeline and managed sprints in Jira.

React Native Azure MSSQL Node.js Next.js MongoDB React SQL NoSQL Azure File Share AWS S3 GCP Docker Git

Hewlett Packard Enterprise

Intern Nov 2015 to Apr 2016

On-site, Taguig City

- Built a C# (MVVM) app to track employee FTE allocations and requirements across projects.

C# · OOP · LINQ · MVVM

Skills

AI & automation

LangChain · LangGraph · OpenAI API · AWS Bedrock Agents · Vertex AI · n8n · Claude Code

Cloud & DevOps

AWS · Elastic Beanstalk · S3 · GitHub Actions · Azure · GCP · Docker

Web

Node.js · Express · React · Next.js · PostgreSQL · React Native

Projects

Tong Masters, tongmasters.gabpaet.dev

Real-time multiplayer Tong-its in the browser, with bots and a guided tutorial.
